William Shakespeare was an English poet, *playwright**, and actor. He was born on 26 April 1564 in Stratford-upon-Avon. His father was a successful local businessman and his mother was the daughter of a *landowner**.

In 1582, when Shakespeare was just 18 years old, he got married to Anne Hathaway, who was eight years older than him

Shakespeare is widely regarded as the greatest writer in the English language and the world's pre-eminent dramatist. He is often called England's *national poet* and nicknamed *the Bard of Avon*. He wrote about 38 plays, 154 sonnets, two long narrative poems, and a few other verses, of which the authorship of some is uncertain. His plays have been translated into every major living language and are performed more often than those of any other playwright

Some of his most *famous* works are Hamlet, King Lear, Macbeth, Romeo and Juliet, Othello, Merchant of Venice and Julius Caesar.
